

Scientific seminars research group “Análisis Geográfico Multiescalar del Cambio Global (IEGD-CSIC)”

- Day: Wednesday January 30 2019
- Hour: 11:30
- Place: CCHS meeting-Room 3E - Enrique Fuentes
- Themes/speakers
 - Estimation of biophysical variables of vegetation using a field and simulated database + research experience at ANU (Australia). **José Ramón Melendo. Pre-doc researcher. SpecLab-CSIC**
 - Adapting the Two-Source energy balance model for the estimation of water and energy fluxes in a seasonally changing and spatially complex Tree-Grass ecosystem + research experience at MPI (Germany). **Vicente Burchard Levine. Pre-doc researcher. SpecLab-CSIC**
 - Radiometric calibration of multispectral cameras on board UAV systems using field spectro-radiometers and handcrafted low-cost calibration panels **M. Pilar Martín. Senior scientist. SpecLab-CSIC**
